ACHIEVING BETTER HEALTH

Prospects, 2006-2010

Health is an important asset in the development of human capital. During the Ninth Malaysia Plan period, while the Government will continue to provide facilities and implement programmes to improve the health status of the population, greater individual responsibility is crucial for achieving better health. Towards this end, efforts will be undertaken to promote lifelong wellness as a proactive approach to maintain health, reduce the disease burden and harness resources available fort he optimum benefit of the population. Emphasis will also be given the consolidation and integration of services to further improve efficiency, quality, accessibility and equity in health care delivery. Thus, health sector development will be guarded by the following strategies:-

- *Preventing and reducing the disease burden to improve the health status;*
- *Enhancing the health care delivery system to increase accessibility to quality care;*
- *Optimizing resources through consolidation and integration;*
- *Enhancing research and development to support evidenced-based decision-making;*
- *Managing health-related crisis and disasters effectively;*
- *Enhancing human resources development; and*
- *Strengthening health information and management systems.*
